

27 MAR 1992

For Six Month Period Ending _____
(Insert date)

Name of Registrant Ruder.Finn

Registration No. 1481

Business Address of Registrant
301 East 57th Street, New York, NY 10022

I—REGISTRANT

1. Has there been a change in the information previously furnished in connection with the following:

(a) If an individual:

(1) Residence address	Yes <input type="checkbox"/>	No <input type="checkbox"/>
(2) Citizenship	Yes <input type="checkbox"/>	No <input type="checkbox"/>
(3) Occupation	Yes <input type="checkbox"/>	No <input type="checkbox"/>

(b) If an organization:

(1) Name	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>
(2) Ownership or control	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>
(3) Branch offices	Yes <input type="checkbox"/>	No <input checked="" type="checkbox"/>

2. Explain fully all changes, if any, indicated in item 1.

IF THE REGISTRANT IS AN INDIVIDUAL, OMIT RESPONSE TO ITEMS 3, 4, and 5.

3. Have any persons ceased acting as partners, officers, directors or similar officials of the registrant during this 6 month reporting period? Yes ☐ No ☒

If yes, furnish the following information:

Name

Position

Date Connection
Ended

4. Have any persons become partners, officers, directors or similar officials during this 6 month reporting period?
 Yes ☐ No ☒

If yes, furnish the following information:

<i>Name</i>	<i>Residence Address</i>	<i>Citizenship</i>	<i>Position</i>	<i>Date Assumed</i>
-------------	------------------------------	--------------------	-----------------	-------------------------

5. Has any person named in Item 4 rendered services directly in furtherance of the interests of any foreign principal?
 Yes ☐ No ☐

If yes, identify each such person and describe his services.

Not applicable

6. Have any employees or individuals other than officials, who have filed a short form registration statement, terminated their employment or connection with the registrant during this 6 month reporting period? Yes ☒ No ☐

If yes, furnish the following information:

<i>Name</i>	<i>Position or connection</i>	<i>Date terminated</i>
-------------	-------------------------------	------------------------

See attached

7. During this 6 month reporting period, have any persons been hired as employees or in any other capacity by the registrant who rendered services to the registrant directly in furtherance of the interests of any foreign principal in other than a clerical or secretarial, or in a related or similar capacity? Yes ☒ No ☐

If yes, furnish the following information:

<i>Name</i>	<i>Residence Address</i>	<i>Position or connection</i>	<i>Date connection began</i>
Dena Merriam	290 Millwood Road Chappaqua, N.Y.	Editorial Director	2/92

II—FOREIGN PRINCIPAL

(PAGE 3)

8. Has your connection with any foreign principal ended during this 6 month reporting period? Yes ☒ No ☐

If yes, furnish the following information:

Name of foreign principal

Date of Termination

Novo Industri A/S
Israel Democracy Institute

12/31/92
2/92

9. Have you acquired any new foreign principal¹ during this 6 month reporting period? Yes ☒ No ☐

If yes, furnish following information:

Name and address of foreign principal

Date acquired

Israel Democracy Institute
European Roundtable
Hudson Soft

11/91
11/91
2/1/92

10. In addition to those named in Items 8 and 9, if any, list the foreign principals¹ whom you continued to represent during the 6 month reporting period.

ADERLY, Asea Brown Boveri, Boehringer Ingelheim Zentrale, Italian Trade Commission,
Novo Industri, Sedgwick Group

III—ACTIVITIES

11. During this 6 month reporting period, have you engaged in any activities for or rendered any services to any foreign principal named in Items 8, 9, and 10 of this statement? Yes ☒ No ☐

If yes, identify each such foreign principal and describe in full detail your activities and services:

Attached

¹The term "foreign principal" includes, in addition to those defined in section 1(b) of the Act, an individual or organization any of whose activities are directly or indirectly supervised, directed, controlled, financed, or subsidized in whole or in major part by a foreign government, foreign political party, foreign organization or foreign individual. (See Rule 100(a)(9)).

A registrant who represents more than one foreign principal is required to list in the statements he files under the Act only those foreign principals for whom he is not entitled to claim exemption under Section 3 of the Act. (See Rule 208.)

12. During this 6 month reporting period, have you on behalf of any foreign principal engaged in political activity² as defined below?
Yes ☐ No ☒

If yes, identify each such foreign principal and describe in full detail all such political activity, indicating, among other things, the relations, interests and policies sought to be influenced and the means employed to achieve this purpose. If the registrant arranged, sponsored or delivered speeches, lectures or radio and TV broadcasts, give details as to dates, places of delivery, names of speakers and subject matter.

13. In addition to the above described activities, if any, have you engaged in activity on your own behalf which benefits any or all of your foreign principals? Yes ☐ No ☒

If yes, describe fully.

²The term "political activities" means the dissemination of political propaganda and any other activity which the person engaging therein believes will, or which he intends to, prevail upon, indoctrinate, convert, induce, persuade, or in any other way influence any agency or official of the Government of the United States or any section of the public within the United States with reference to formulating, adopting, or changing the domestic or foreign policies of the United States or with reference to the political or public interests, policies, or relations of a government of a foreign country or a foreign political party.

IV—FINANCIAL INFORMATION

14. (a) RECEIPTS—MONIES

During this 6 month reporting period, have you received from any foreign principal named in Items 8, 9 and 10 of this statement, or from any other source, for or in the interests of any such foreign principal, any contributions, income or money either as compensation or otherwise? Yes ☒ No ☐

See attached

If yes, set forth below in the required detail and separately for each foreign principal an account of such monies.³

<i>Date</i>	<i>From Whom</i>	<i>Purpose</i>	<i>Amount</i>
-------------	------------------	----------------	---------------

Total

(b) RECEIPTS—THINGS OF VALUE

During this 6 month reporting period, have you received any thing of value⁴ other than money from any foreign principal named in Items 8, 9 and 10 of this statement, or from any other source, for or in the interests of any such foreign principal?

Yes ☐ No ☒

If yes, furnish the following information:

<i>Name of foreign principal</i>	<i>Date received</i>	<i>Description of thing of value</i>	<i>Purpose</i>
--------------------------------------	--------------------------	--	----------------

³A registrant is required to file an Exhibit D if he collects or receives contributions, loans, money, or other things of value for a foreign principal, as part of a fund raising campaign. See Rule 201(e).

⁴Things of value include but are not limited to gifts, interest free loans, expense free travel, favored stock purchases, exclusive rights, favored treatment over competitors, "kickbacks," and the like.

15. (a) DISBURSEMENTS—MONIES

During this 6 month reporting period, have you

(1) disbursed or expended monies in connection with activity on behalf of any foreign principal named in Items 8, 9 and 10 of this statement? Yes ☒ No ☐

(2) transmitted monies to any such foreign principal? Yes ☐ No ☒

If yes, set forth below in the required detail and separately for each foreign principal an account of such monies, including monies transmitted, if any, to each foreign principal.

<i>Date</i>	<i>To Whom</i>	<i>Purpose</i>	<i>Amount</i>
-------------	----------------	----------------	---------------

See attached

Total

15. (b) DISBURSEMENTS—THINGS OF VALUE

During this 6 month reporting period, have you disposed of anything of value⁵ other than money in furtherance of or in connection with activities on behalf of any foreign principal named in items 8, 9 and 10 of this statement?

Yes ☐ No ☒

If yes, furnish the following information:

<i>Date disposed</i>	<i>Name of person to whom given</i>	<i>On behalf of what foreign principal</i>	<i>Description of thing of value</i>	<i>Purpose</i>
--------------------------	---	--	--	----------------

(c) DISBURSEMENTS—POLITICAL CONTRIBUTIONS

During this 6 month reporting period, have you from your own funds and on your own behalf either directly or through any other person, made any contributions of money or other things of value⁵ in connection with an election to any political office, or in connection with any primary election, convention, or caucus held to select candidates for political office?

Yes ☐ No ☒

If yes, furnish the following information:

<i>Date</i>	<i>Amount or thing of value</i>	<i>Name of political organization</i>	<i>Name of candidate</i>
-------------	-------------------------------------	---	------------------------------

V—POLITICAL PROPAGANDA

(Section 1(j) of the Act defines "political propaganda" as including any oral, visual, graphic, written, pictorial, or other communication or expression by any person (1) which is reasonably adapted to, or which the person disseminating the same believes will, or which he intends to, prevail upon, indoctrinate, convert, induce, or in any other way influence a recipient or any section of the public within the United States with reference to the political or public interests, policies, or relations of a government of a foreign country or a foreign political party or with reference to the foreign policies of the United States or promote in the United States racial, religious, or social dissensions, or (2) which advocates, advises, instigates, or promotes any racial, social, political, or religious disorder, civil riot, or other conflict involving the use of force or violence in any other American republic or the overthrow of any government or political subdivision of any other American republic by any means involving the use of force or violence.)

16. During this 6 month reporting period, did you prepare, disseminate or cause to be disseminated any political propaganda as defined above? Yes ☐ No ☒

IF YES, RESPOND TO THE REMAINING ITEMS IN THIS SECTION V.

17. Identify each such foreign principal.

⁵Things of value include but are not limited to gifts, interest free loans, expense free travel, favored stock purchases, exclusive rights, favored treatment over competitors, "kickbacks," and the like.

18. During this 6 month reporting period, has any foreign principal established a budget or allocated a specified sum of money to finance your activities in preparing or disseminating political propaganda? Yes ☐ No ☐

If yes, identify each such foreign principal, specify amount, and indicate for what period of time.

Not applicable

19. During this 6 month reporting period, did your activities in preparing, disseminating or causing the dissemination of political propaganda include the use of any of the following:

☐ Radio or TV broadcasts ☐ Magazine or newspaper articles ☐ Motion picture films ☐ Letters or telegrams
☐ Advertising campaigns ☐ Press releases ☐ Pamphlets or other publications ☐ Lectures or speeches

☐ Other (specify) Not applicable

20. During this 6 month reporting period, did you disseminate or cause to be disseminated political propaganda among any of the following groups:

☐ Public Officials ☐ Newspapers ☐ Libraries
☐ Legislators ☐ Editors ☐ Educational institutions
☐ Government agencies ☐ Civic groups or associations ☐ Nationality groups

☐ Other (specify) Not applicable

21. What language was used in this political propaganda:

☐ English ☐ Other (specify) Not applicable

22. Did you file with the Registration Section, U.S. Department of Justice, two copies of each item of political propaganda material disseminated or caused to be disseminated during this 6 month reporting period? Yes ☐ No ☐

Not applicable

23. Did you label each item of such political propaganda material with the statement required by Section 4(b) of the Act? Yes ☐ No ☐ Not applicable

24. Did you file with the Registration Section, U.S. Department of Justice, a Dissemination Report for each item of such political propaganda material as required by Rule 401 under the Act? Yes ☐ No ☐ Not applicable

VI—EXHIBITS AND ATTACHMENTS

25. EXHIBITS A AND B

- (a) Have you filed for each of the newly acquired foreign principals in Item 9 the following:

Exhibit A⁶ Yes ☒ No ☐
 Exhibit B⁷ Yes ☒ No ☐

If no, please attach the required exhibit.

- (b) Have there been any changes in the Exhibits A and B previously filed for any foreign principal whom you represented during this six month period? Yes ☐ No ☒

If yes, have you filed an amendment to these exhibits? Yes ☐ No ☐

If no, please attach the required amendment.

⁶The Exhibit A, which is filed on Form CRM-157 (Formerly OBD-67) sets forth the information required to be disclosed concerning each foreign principal.

⁷The Exhibit B, which is filed on Form CRM-155 (Formerly OBD-65) sets forth the information concerning the agreement or understanding between the registrant and the foreign principal.

26. EXHIBIT C

If you have previously filed an Exhibit C⁸, state whether any changes therein have occurred during this 6 month reporting period. Yes ☐ No ☐

If yes, have you filed an amendment to the Exhibit C? Yes ☐ No ☐

If no, please attach the required amendment.

27. SHORT FORM REGISTRATION STATEMENT

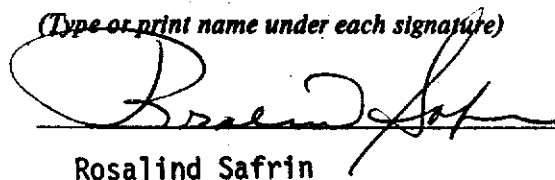

Have short form registration statements been filed by all of the persons named in Items 5 and 7 of the supplemental statement? Yes ☒ No ☐

If no, list names of persons who have not filed the required statement.

The undersigned swear(s) or affirm(s) that he has (they have) read the information set forth in this registration statement and the attached exhibits and that he is (they are) familiar with the contents thereof and that such contents are in their entirety true and accurate to the best of his (their) knowledge and belief, except that the undersigned make(s) no representation as to the truth or accuracy of the information contained in attached Short Form Registration Statement, if any, insofar as such information is not within his (their) personal knowledge.

(Both copies of this statement shall be signed and sworn to before a notary public or other person authorized to administer oaths by the agent, if the registrant is an individual, or by a majority of those partners, officers, directors or persons performing similar functions who are in the United States, if the registrant is an organization.)

(Type or print name under each signature)

Rosalind Safrin

Subscribed and sworn to before me at

NEW YORK, NEW YORK

this 27th day of APRIL, 19 92

PATRICIA L. MOGLIA
Notary Public, State of New York
No. 41-4848212
Qualified in Queens County
Commission Expires Feb. 17, 19 94

(Signature of notary or other officer)

⁸The Exhibit C, for which no printed form is provided, consists of a true copy of the charter, articles of incorporation, association, constitution, and bylaws of a registrant that is an organization. (A waiver of the requirement to file an Exhibit C may be obtained for good cause upon written application to the Assistant Attorney General, Criminal Division, Internal Security Section, U.S. Department of Justice, Washington, D.C. 20530.)

UNITED STATES DEPARTMENT OF JUSTICE
REGISTRATION UNIT
CRIMINAL DIVISION
WASHINGTON, D.C. 20530

NOTICE

Please answer the following questions and return this sheet in triplicate with your supplemental statement:

1. Is your answer to Item 16 of Section V (Political Propaganda - page 7 of Form CRM-154, formerly Form OBD-64 - Supplemental Statement):

Yes _____ or No XX

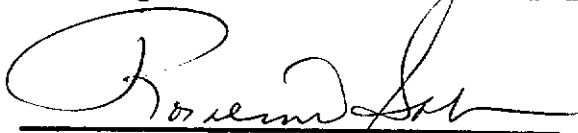

(If your answer to question 1 is "yes" do not answer question 2 of this form.)

2. Do you disseminate any material in connection with your registration:

Answers vary for each foreign principal

Yes _____ or No _____

(If your answer to question 2 is "yes" please forward for our review copies of all such material including: films, film catalogs, posters, brochures, press releases, etc. which you have disseminated during the past six months.)

Signature

Stamford, Conn. ... New technology that uses satellite pictures of earth to predict how cities will look in the 21st century is helping utilities to cut costs by millions of dollars and conserve energy at the same time.

By building computer models of future cities from satellite images, a complex software system, developed by ABB Distribution Technology Center, a unit of Asea Brown Boveri, Inc. in Stamford, Connecticut, provides utilities with detailed plans for reducing the costs and improving the efficiency of delivering power to their customers. Since in times of limited generation expansion, the greatest capital costs for utilities are expenditures on transmission and distribution (T&D) equipment, this technology can yield enormous savings for the power industry.

In addition, when utilities apply ABB's software to their overall conservation programs, they can generate even greater reductions by showing engineers, for the first time, where and how they can postpone the purchase of new equipment and still meet the needs of their customers. This technology can deliver large savings by predicting the effect of energy conservation efforts in specific areas.

Central Maine Power and the Chattanooga Electric Power Board are two of several utilities currently pioneering this technology to reduce costs. Daniel Gibbs, Supervisor of Planning for the Chattanooga Electric Power notes, "Although we typically can predict that electrical demand will grow, this technology can pinpoint exactly where and how much. This means better planning and savings in construction costs by as much as 10 percent."

-more-

Given that the 1990 annual construction costs for over 231 investor owned utilities were more than \$50 million per utility, a 10% cut in construction costs can mean millions in savings to utilities.

The forecast involves several stages. First, the system applies a unique pattern recognition technique to satellite photographs, producing land-use maps of the region detailing residential, industrial and business communities. Second, this map is fed into ABB'S CADPAD, (Computer Aided Distribution Planning and Design) which projects how the area will grow, predicting where new homes will be built, where the next shopping center will be located, taking into account the influence of new highways and where new industries will develop.

Third, through a forecast algorithm, CADPAD applies the current demand for electricity to the customers of the future. Finally, CADPAD shows utilities' marketing executives and engineers how, when and where they should build new substations and transmission and distribution lines, so they can deliver power to customers in the most economical and reliable way.

"Because of recent breakthroughs by ABB, a planning data base for an entire utility system can be created using satellite data in a matter of days for any location on earth, and it is over 94% accurate," notes Jose Juves, General Manager of ABB's Automated Distribution Division. Before this technology, if utilities needed to plan they had to rely on manual analysis of aerial photographs which were expensive, time consuming and often inaccurate.

Jerrel L. Wallace, a supervisor at the City of Austin Electric Department and another user of the technology notes, "These forecasts help utilities spot trends before they happen. Time is money, and the more lead time that you have to solve a problem, the less money you ultimately spend."

Beyond the sizable long range planning benefits, the ABB system is also helping utilities to optimize their usage of new T&D equipment by linking the location of the equipment to utility wide conservation programs, known as Demand Side Management.

"Designing Demand Side Management programs to defer T&D expenditures presents extremely promising options to utilities," states Veronica Rabl, Director of Customer Systems Division of the Electric Power Research Institute (EPRI). In two cases where EPRI applied the technology at Central Maine Power and PG&E, companies reported savings of over \$40 million. Called Spatial Frequency Analysis, this specific software utilizes satellite derived maps to help utilities target their conservation efforts at consumers located in areas where high T & D expansion costs are expected.

ABB Inc. provides products and services for the power, process, industrial automation environmental, control, mass transit and other markets. The company and its subsidiaries have sales of approximately \$6 billion and 30,000 employees in the United States.

STAMFORD, CONN. ... A new technology that instantly and continuously monitors levels of air pollutants is expected to help industries and utilities comply with provisions of the 1990 Amendments to the Clean Air Act. Asea Brown Boveri Inc. (ABB) is announcing that a new unit will manufacture and market this technology that surpasses any air monitoring system currently available in the U.S.

Current methods to monitor air quality generally detect only a single pollutant in the air at a single moment. In contrast, this technology known as OPSIS can simultaneously measure up to 20 different pollutants including oxides of sulfur and nitrogen and thus provide utilities with an early warning system to detect immediately any changes in emissions that might be outside of the compliance range. OPSIS can be used to measure air quality over an entire city or emissions from one smokestack. Monitoring emissions is critical because of severe federal penalties for noncompliance.

"Operating without a continuous air monitoring system, such as OPSIS, is like driving without a speedometer. At any given moment, you won't know whether you are operating legally or not," comments M. Dale Sands, President of ABB Environmental Services, which has formed a new company to offer this product to U.S. markets.

OPSIS works by projecting a narrow beam of light from a transmitter to a receiver over a predetermined path. The path can be just a few feet long for measuring smokestack emissions or up to 1.5 miles for monitoring overall air quality. Air pollutants leave a specific molecular fingerprint in the color distribution of the light. In this way many gasses can be measured simultaneously. The light collected by the receiver is sent over a fiber optic cable to a central unit containing a computerized spectrometer. The spectrometer analyzes the types and quantities of gaseous substances in the measurement path.

The system provides continuous analysis of air quality by monitoring such substances as oxides of sulfur and nitrogen, hydrochloric acid, mercury vapors, ozone and a long list of hydrocarbons, including benzene, styrene, toluene, xylene and chlorobenzenes. An OPSIS central processing unit can collect and analyze data from up to 12 different remote locations to measure air quality over an entire city.

Since 1987, OPSIS has been used in 200 installations in Europe and is currently being evaluated by environmental protection authorities at several locations in North America including an area of Pittsburgh and an industrial park in North Carolina. OPSIS is being marketed by ABB Environmental Monitoring Systems, Inc. in Wayne, New Jersey.

Asea Brown Boveri Inc. provides products and services for the power, process, industrial automation, environmental control, mass transit and other markets. The company and its subsidiaries have sales of approximately \$6 billion and some 30,000 employees in the United States.

The Impact of OPSIS

The OPSIS system will monitor:

- o Air pollutants in urban and industrial locations
- o Pollutants in stack emissions [as Continuous Emission Monitor (C.E.M.)] from power stations and waste-incineration plants
- o Process gases in chemical-processing systems

OPSIS makes compliance with Clean Air Act Amendments technically and economically easier. From the standpoint of the type and number of compounds which can be detected, as well as the sensitivity of the detection levels, there is currently no comparable system anywhere in the world.

The first users of OPSIS in the United States will likely be the 110 utilities and municipal waste-to-energy plants already targeted for compliance with Phase I provisions of the Clean Air Act Amendments.

The only way to assure this compliance is continuous self-monitoring of emissions to the atmosphere, as OPSIS does. Current monitoring methods, involving periodic sampling, may miss too much to be reliable.

OPSIS provides round-the-clock monitoring of stack emissions and serves as an early warning system enabling industrial plants to detect immediately and correct any changes in emission patterns that might take them out of compliance.

Monitoring emissions is critical because of severe penalties for noncompliance. Under Title VII, the U.S. Environmental Protection Agency can issue administrative penalties of up to \$200,000 to violators, and field inspectors can issue citations of up to \$5,000. Senior executives can be charged for "knowing or negligent endangerment," and criminal penalties upon conviction are upgraded from misdemeanors to felonies.

A list of 189 toxic air pollutants to be regulated already has been established, and Maximum Achievable Control Technology (MACT) standards are being set for major sources that emit 10 tons/year of a single pollutant or 25 tons/year in aggregate.

In addition, the EPA is currently strengthening its monitoring and compliance certification regulations, including a new requirement that all emissions data be made available for public review.

Proven Effectiveness

The ability of OPSIS to meet this requirement is demonstrated by an installation in Gothenburg, Sweden, operating since 1987, in which air quality measurements between four OPSIS monitoring locations are displayed in a public area.

The effectiveness of the OPSIS system has been clearly established through 200 installations in Europe and other countries since 1987. In North America, OPSIS test programs are now underway at a major Canadian airport and in a heavily industrialized section of Pittsburgh. In addition, the EPA has tested OPSIS over a downtown Atlanta freeway and has another project underway at an industrial park in the North Carolina Research Triangle.

The Environmental Protection Commission of Hillsborough County (Tampa, Florida) and the Houston (Texas) Regional Monitoring Corporation also have used OPSIS for urban ambient air pollution monitoring.

Technical background

DIFFERENTIAL OPTICAL ABSORPTION SPECTROSCOPY (DOAS)

The technology underlying the OPSIS Air Pollution Monitoring system is known as Differential Optical Absorption Spectroscopy (DOAS). Designed to determine concentrations of various atmospheric gaseous components, it was developed mainly in Germany and Sweden, commercialized by OPSIS AB in Sweden and licensed exclusively to Asea Brown Boveri Inc. (ABB) for manufacturing and marketing in the U.S.

DOAS makes use of a broadband light source, such as a high-pressure xenon or halogen lamp, which is collimated by a parabolic mirror to a narrow beam. The beam is transmitted through the atmosphere to a receiver where the light is captured and focused by another parabolic mirror onto a fibre-optical cable that feeds into an optical analysis unit. The transmission path can range from several feet, for measuring emissions in a stack, to 1.5 miles for monitoring ambient air over large areas. The cable allows sheltering the instrument from external environments.

-more-

Gaseous substances encountered by the light beam will absorb a portion of the light. The concentrations of various pollutants can be determined by analyzing the amplitudes of the various spectral light frequencies received by the optical analysis unit. The computerized spectrometer is equipped with software corresponding to the individual pollutants being measured. These can include a number of atmospheric trace gases with absorption lines in the visible light and ultraviolet light spectrum, such as various oxides of sulphur and nitrogen, hydrochloric acid, mercury vapors, ozone and a long list of hydrocarbons, from benzene to styrene, toluene, xylene and chlorobenzenes.

Pollutants can be measured over a single-pass optical system with paths up to 1.5 miles or over distances of 1/2 mile with a double-pass system where transmitter and receiver are combined in one unit and the beam is reflected by mirrors.

Process or stack monitoring generally involves a single-pass system. Ambient monitoring of large areas can involve as many as twelve paths with a multiplexer; these can be single-pass, double-pass or a combination.

The analyzer integrates total light absorption to present a mean value over the entire path, whereas conventional systems sample the air only at discrete points which may not be representative of overall conditions.

An ambient air OPSIS system, equipped with two or three light paths, combined with a wind monitoring station can provide a comprehensive picture of air quality under varying conditions that would otherwise be difficult if not impossible to construct with conventional sampling techniques.

-more-

The spectrometer proper is a Czerny-Turner with a rotating slotted disk with 20 disks that rotates at 300 rpm to produce 6000 scans per minute. In urban area monitoring the averaging time is 1 to 2 minutes per reading, so fleeting air disturbances or light interruptions will have little effect on the accuracy of measurement.

The OPSIS Continuous Emission Monitor (C.E.M.) system is designed to meet all EPA requirements, and the OPSIS ambient system will operate reliably under most atmospheric conditions.

ABB Environmental Services Inc., a subsidiary of ABB, Inc., is an environmental management firm with 550 employees in 9 offices across the United States. the firm provides consulting services, systems and products to solve environmental problems. The company focuses its offerings in the areas of air quality engineering, pollution prevention, remediation design and implementation, site characterization and assessment, and medical waste disinfection.

Asea Brown Boveri Inc. provides products and services for the power, process, industrial automation, environmental control, mass transit and other markets. The company and its subsidiaries have sales of approximately \$6 billion and some 30,000 employees in the United States.

Describe fully all activities of Registrant during the period for or in the interest of each foreign principal.

During the six months, Ruder Finn Incorporated was engaged in the following activities on behalf of Boehringer Ingelheim GmbH:

1. Preparation of public relations materials for pharmaceutical products and devices of Boehringer Ingelheim GmbH.
2. Preparation of copy for Lung & Respiration.
3. Media contact.
4. General public relations counseling.

RuderFinn Incorporated
Schedule of Publications on Behalf of
The Italian Trade Commission
For Six month period ending March 27, 1992

<u>Description of Publications</u>	<u>By Whom Written, Edited or Prepared</u>	<u>By Whom Printed, Produced or Published</u>	<u>By Whom Distributed</u>
Releases:			
1. "ITC Continues Wine Seminar and Tasting Program"	Heather Pace	Beverage trade media	Heather Pace, Caryn Carter
2. "Wine and Food"	Heather Pace	Beverage trade media	Heather Pace Caryn Carter

92 APR 28 9 10U

RECEIVED
APR 28 1992

Describe fully all activities of Registrant during the period for or in the interest of each foreign principal. During the six months, Ruder Finn was engaged in the following activities on behalf of the Italian Trade Commission.

1. Coordinated wine seminars and tastings in 18 U.S. cities. Organized all logistics of the program including scheduling hotel sites, hiring spokespersons, catering, developing mailing lists, and issuing invitations.
2. Worked with Italian wine importers and their local distributors to insure correct wines were delivered in a timely manner to the site of the event.
3. Publicized the seminars and tastings within national and local media.
